DETAILED ACTION

The response to the previous office action has overcome the non-final rejection. Claims 1, 3, 5-6, 8, and 10-11 are allowed.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The claimed invention is a nitride-based semiconductor light-emitting device comprising:

- A silicon doped n-type GaN-based substrate; and
- A semiconductor stacked-layer structure including a plurality of nitride-based semiconductor layers grown on the GaN-based substrate by metal-organic chemical vapor phase deposition,
 - The GaN-based substrate having an interface region contacting the semiconductor stacked-layer structure and the interface region containing oxygen atoms and the GaN-based substrate grown by hydride vapor phase epitaxy method,
 - The semiconductor stacked-layer structure including a silicon doped n-type nitride-based semiconductor layer, a light-emitting layer, and a p-type nitride-based semiconductor layer in this order from the substrate side.

Reference Ogawa et al. (US 6,455,877) do not disclose a silicon doped n-type GaN-based substrate having an interface region containing oxygen atoms.

Reference Goetz et al. (US 6,441,393) do not disclose a silicon doped n-type GaN-based substrate having an interface region containing oxygen atoms.

Therefore, Therefore, the above references do not disclose the claimed invention of present application and claims 1, 3, 5-6, 8, and 10-11 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
